Professional Summary

UX designer and upcoming 2026 Barnard/Columbia graduate with a background in research and marketing. Experienced leading end-to-end web projects in close collaboration with design and engineering teams to deliver high-satisfaction digital experiences.

Education

Barnard College, Columbia University, New York, NY

2022 - 2026

Bachelor of Arts, Cognitive Science, Education minor (GPA: 4.1); Phi Beta Kappa

Experience

Sigma Education | UX DESIGNER & FRONTEND DEV.

Jan 2025 – present

- Led the mobile redesign of SigmaEd., using Figma and generative UI tools (Lovable) to accelerate the design-to-build cycle by 60%.
- Transformed a copy-heavy interface into a high-impact, "punchy" mobile experience based on the CEO's vision to improve viewer-to-customer conversion rates.

Savo Health | UX RESEARCH INTERN

Dec 2025 – Jan 2025

- Led a 4-week end-to-end customer discovery initiative to validate product-market fit for a healthcare SaaS platform.
- Conducted 50+ cold calls to diabetes prevention program providers, identified 10+ critical pain points and workflow gaps through primary research with stakeholders, translating qualitative insights into a "Design Criteria" framework for the engineering team.
- Developed an MVP refinement strategy, directly influencing the product's value proposition and feature prioritization.

BAR21 | UI/UX DESIGNER

Jan 2024 – Aug 2025

- Led UX initiatives for a video game project managing team deadlines; created wireframes and visual guidelines in Figma, applying UI/UX design principles alongside user-centric storyboarding and inclusive design practices.
- Collaborated with the design team, storyline team, and development team to establish visual style guides, draft 3 iterations of wireframes, and ensure technical feasibility.

Alterea | E-LEARNING INSTRUCTIONAL DESIGN INTERN

Feb 2025 - May 2025

- Analyzed UI/UX during beta testing to identify 15+ confusion points and recommended design changes to improve game flow for Agents of Influence educational game and usability of associated teacher dashboard (tool for teachers).
- Designed 15 lesson plans and tagged the content with appropriate teaching standards.
- Developed a game play guide used by over 600 teachers across the US, improving onboarding and gameplay confusion.

Columbia's The Living Lab | LEAD RESEARCH ASSISTANT

Jan 2024 - Present

- Managed recruitment of over 50 bilingual participants, scheduling, and execution of sessions, received full-time summer research grant funding, and secured \$2500 of lab funding.

Sharp Electronics | ASSOCIATE MARKETING COMMUNICATIONS SPECIALIST

Sep 2022 - Aug 2024

- Served as Sharp's primary ADA specialist, revamping website content and restructuring digital documents to meet ADA compliance standards and enhance user accessibility; did SEO copywriting to increase user traffic and site ranking.
- Collaborated on the consolidation of B2B and B2C websites by redesigning business site pages using Adobe XD, with a focus on user-centric design and visual consistency.

Sharp Electronics | MARKETING INTERN

May 2022 - Aug 2022

- Gathered user feedback from Sharp dealers for a new website function and led ADA compliance initiative by restructuring over 100 digital marketing materials to adhere to accessibility standards using Adobe Creative Suite.

PricewaterhouseCoopers (PwC) & Extern | CONSULTING EXTERN

Jun 2023 - Aug 2023

- Analyzed donor landscape and fundraising trends to develop donor profiles; synthesized findings into weekly presentations for PwC leadership and delivered a final recommendations deck to the client. Selected as an Extern ambassador for strong performance.

Technical Skills & Languages

- **Technical Tools:** Adobe Creative Cloud, Figma, Balsamiq, Psychopy, Pavlovia, iMovie, ExpoGo, React
- **Design & Experience:** UX Design, ADA compliance, wireframing, frontend development, instructional design, project management
- **Programming & Research:** html, css, javascript, Data Analysis, Research, Grant writing, JupyterLab, python, java
